

Dear Mr. Powell,

I am very unhappy with the new rules changes that you are considering on June 2, 2003. The local and national news are one sided in my areas, many voices have been shut out. Example of this is our local Wink radio and tv. Radio host are fired because they don't follow the propaganda views of the owners and managers. The mean spirited radio host that attack our values and justice system are promoted and encouraged. Hate and lies of the truth are encouraged. The American people OWN the air waves and if you allow a few hateful mean spirited people to assault us on the airwave by giving them full raine over our thoughts what kind of America will be have? I strongly ask you to liston to the many voices that are begging for your consideration. Thank you for your time.
